

ADMINISTRATIVE RULES OF MONTANA

6.6.7904 NETWORK ADEQUACY DIRECTORIES

- (1) A PBM must post electronically a current, accurate, and searchable directory of pharmacies for each pharmacy network.
 - (a) In making the directory available electronically, the PBM must ensure that the general public is able to view all pharmacies included in each pharmacy network through a clearly identifiable link or tab, without creating an account or entering a policy or contract number.
 - (b) A PBM must clearly identify in its electronic directories the pharmacies that are in each pharmacy network.
 - (c) A PBM must include in its electronic directory a customer service email address and telephone number or electronic link that enrollees, injured workers of a workers' compensation insurance carrier, or the general public may use to notify the PBM of inaccurate directory information.
