

ADMINISTRATIVE RULES OF MONTANA

36.22.1229 WATER INJECTION AND GAS REPRESSURING

- (1) The owner or operator of any well may inject water or gas under pressure into a formation containing oil or gas for the purpose of obtaining oil or gas from the reservoir upon application, hearing, and approval by the board.
- (2) Wells used for the injection of water or gas into a producing formation shall be cased with sound casing so as not to permit leakage, and the casing cemented in such manner as to protect oil, gas, or fresh water reservoirs.
