

ADMINISTRATIVE RULES OF MONTANA

20.27.106 DESIGN AND CONSTRUCTION OF PRIVATE CORRECTIONAL FACILITIES

- (1) Design and construction of private correctional facilities must conform to applicable American Correctional Association standards for prisons.
- (2) Prior to initiating facility construction, design and construction of private correctional facilities must be reviewed and approved by the Montana Department of Administration Architectural and Engineering Division (A&E), and the department.
- (3) Prior to commencing operations, the prevailing proposer must obtain letters of approval from A&E and the department.
- (4) Design and construction of private correctional facilities must conform to all applicable federal, state, and local codes.
 - (a) Compliance must be documented by the authority having jurisdiction.
 - (b) Successful proposers shall provide the department and A&E with copies of all building and occupancy permits.
- (5) Any contractor or subcontractor performing construction of any type on private correctional facilities shall perform work in accordance with all state and local laws, rules and ordinances.
