

ADMINISTRATIVE RULES OF MONTANA

17.74.356 ASBESTOS PROJECT CONTROL MEASURES

- (1) An asbestos contractor/supervisor shall be:
 - (a) physically present at all times at the work site when permitted work is being conducted on an asbestos project;
 - (b) accessible to all asbestos workers; and
 - (c) responsible for ensuring that the asbestos project complies with the asbestos project permit and the project design.
- (2) Alternate control measures that are equivalent to those required under this subchapter may be used if written approval is obtained from the department in advance pursuant to ARM 17.74.353.
