

## ADMINISTRATIVE RULES OF MONTANA

### 24.112.507 PROCEDURES FOR REVISION OF MONTANA ECP SCOPE OF PRACTICE DOCUMENT

- (1) A medical director may submit a petition for revisions to the Montana ECP Scope of Practice Document. The department may accept public comment regarding the petition.
- (2) The petition must be submitted on a department-approved form with the following supporting documentation:
  - (a) a written recommendation and/or position statement for the revision; and
  - (b) literature supporting the recommendations and/or position.
- (3) The department shall approve the proposed revision when:
  - (a) it is demonstrated to the satisfaction of the department that granting the petitioner's request is necessary to provide appropriate standards of medical care;
  - (b) the department finds that the public's interest in granting the revision clearly outweighs the interest of maintaining the uniform Montana ECP Scope of Practice Document; and
  - (c) the department concludes the revisions will protect public health, safety, and welfare.
