

ADMINISTRATIVE RULES OF MONTANA

32.3.1002 HANDLING OF CARCASSES AND CARCASS PARTS OF ANTHRAX INFECTED ANIMALS

- (1) The carcasses of animals which have died of anthrax may not be skinned or opened, except when considered necessary by a deputy state veterinarian in order to make a definite diagnosis.
- (2) Carcasses and hides of animals that have died of anthrax must be completely burned, covered with a disinfectant approved by the state veterinarian, and buried 6 feet deep from the tip of the carcass, or sterilized in a licensed rendering plant under the immediate supervision of a deputy state veterinarian.
- (3) If it is necessary to move the carcass of an animal that has died of anthrax:
 - (a) The carcass must only be moved the minimum distance necessary for burning or burial; or
 - (b) Carcasses may be moved in an approved licensed rendering plant truck by written permission from and under the supervision of a deputy state veterinarian.
