

ADMINISTRATIVE RULES OF MONTANA

37.106.2032 PATIENT TOILETS AND BATHING

- (1) There will be at least one toilet available for every four patients in the facility.
- (2) There will be at least one bathing unit for every six patients in the facility. A shower or tub is not required if the facility utilizes a central bathing unit for every six patients.
- (3) All doors to toilet rooms or bathing units must swing out or slide into the wall and shall be unlockable from the outside.
- (4) Toilet rooms and bathing facilities may be under key control by staff.
